

Website Updates 8/6/16

1. **Clear formatting button** added to the text editor to help when using copy and paste from existing documents and web pages. This tool will remove all hidden formatting, allowing you to better manage how your test looks on the page.

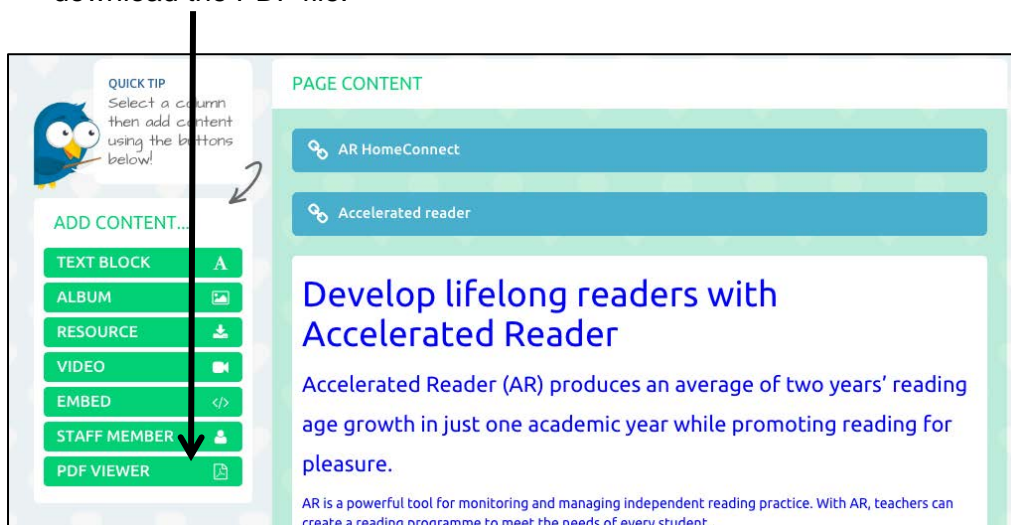

2. **Homepage Panel Options:**

- **Links/Download** widget added to the homepage options having recognised that everything you may want to share here is a Newsletter! A maximum of 7 items are allowed.
- **When no content is added** to a chosen widget panel, the widget title is no longer displayed for the live site view.

3. **Download buttons** and link buttons have been updated.

4. **PDF viewer** added for page content, enabling you to display key documents directly on the page. This is located within the add content panel. Simply click this and upload a PDF. Only the file name will appear in the editor view but your audience sees the PDF with zoom controls on the live site. The widget includes buttons to rotate, print and download the PDF file.

5. Additional **calendar** options for setting **recurring events**. Make sure that the start and end dates are the same week (more often these are the same day), this will then extend the dropdown options for the event to weekly/monthly. A box will allow you to choose the last day for when the event is to run to.

6. A new **Biography field** has been added within the **staff member** tool. This is an optional field but extends the tool so that you can add further information – particularly useful for meeting the statutory requirements for governor thumbnails!

Staff

Mr Brown

Teacher

Mr Brown joined the school in 2007 after completing his PGCE in Cambridge. His favourite subject is Maths which is handy as he is the schools Maths coordinator! Outside of school Mr Brown enjoys playing the guitar and is a keen footballer.
